

Daniel Crabbe

Frontend Engineer

Experienced frontend developer passionate about delivering valuable solutions that people love using. Armed with a trained design background, I bring craft to the world of engineering.

A natural problem solver who's delivered large initiatives and impactful projects. I relish in making products cutting edge & reliable from the ground up. Connecting multiple technologies together & creating beautiful experiences.

I'm constantly looking to apply the most current practices to all my work with the ability to pick up new skills on the field.
